

fullpower® sleep

Place the sensors **under the mattress**, directly beneath the pillow area, **firmly sandwiched** between the mattress and bed.

USE **TWO SENSORS** FOR:

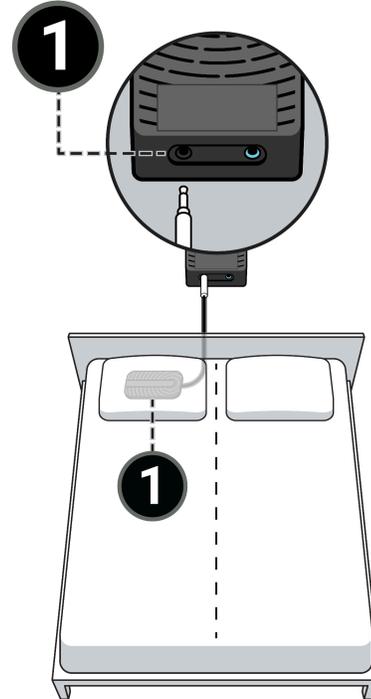

TWO PEOPLE or **ONE PERSON & PET**

- Put the sensor plugged into the **black port** on **side 1**
- Put the sensor plugged into the **blue port** on **side 2**
- Align the sensors near outer edge of each pillow

USE **ONE SENSOR** FOR:

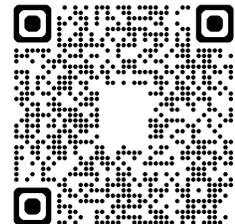

ONE PERSON

- Use one sensor plugged into the **black port**
- Center the sensor under the pillow
- Leave the second sensor unplugged, it is not needed

DOWNLOAD THE COMPANION APP

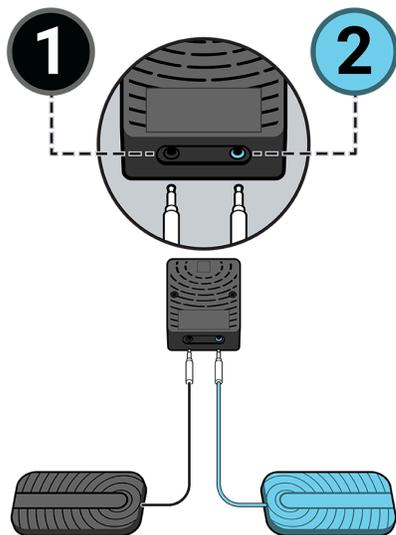

Note: These QR codes are only for downloading the companion app. While setting up your hardware, you'll be asked to scan a different QR code located on the processor itself.
